BIODIVERSITY POLICY

Haldia Energy Limited (HEL) is committed to sustainable growth and respects the biodiversity values it inherited from the land. HEL has taken up several initiatives to improve the quality of the environment and hence supports a wide spectrum of flora and fauna.

As per this Policy, Haldia Energy Limited will:

- Ensure that the operational aspects do not lead to failure in complying with the environmental norms and statutes.
- Consider biodiversity aspects and make efforts to achieve NNL positive in its areas of operation.
- Support enabling conditions for biodiversity conservation and proliferation by extensive plantation leading to increased carbon sequestration.
- Reduce threats to biodiversity by maintaining a conducive environment in its areas of operation.
- Integrate conservation and development for improved biodiversity.
- Build partnerships to mobilize resources in support of biodiversity conservation and eco-restoration.
- Leave a positive impact on the surrounding atmosphere for generations to come.
- Encourage and educate relevant stakeholders to support better biodiversity management through active collaboration.
- Initiate the valuation of relevant biodiversity and ecosystem services.
